An act to amend Section 5201 of the Vehicle Code, relating to vehicles.

LEGISLATIVE COUNSEL'S DIGEST

AB 1303, as amended, Simitian. Vehicles: license plates: display: persons with disabilities.

Existing law requires vehicle license plates to be securely fastened at all times to the vehicle for which they are issued so as to prevent the plates from swinging, to be mounted in a position so as to be clearly visible, and to be maintained in a condition so as to be clearly legible, except as specified.

This bill would provide that it is not a violation of this requirement if the reading or recognition of a rear license plate is obstructed or impaired by a wheelchair lift or wheelchair carrier ~~and~~, the license plate is a special identification license plate, as specified, or the vehicle displays a distinguishing placard, as specified, *and the operator displays on the vehicle's rear window a specified decal, designed and issued by the Department of Motor Vehicles.*

*The bill would require the Department of Motor Vehicles, in consultation with the Department of the California Highway Patrol, to*

*determine where on the rear window the decal shall be displayed. The bill would also require the Department of Motor Vehicles to adopt regulations governing procedures for accepting and approving applications for the decals and for issuing the decals.*

Vote: majority. Appropriation: no. Fiscal committee: ~~no~~ yes.  
State-mandated local program: no.

*The people of the State of California do enact as follows:*

1 SECTION 1. Section 5201 of the Vehicle Code is amended to  
2 read:

6 clearly visible, and shall be maintained in a condition so as to be  
7 clearly legible. The rear license plate shall be mounted not less  
8 than 12 inches nor more than 60 inches from the ground, and the  
9 front license plate shall be mounted not more than 60 inches from  
10 the ground, except as follows:

11 (a) The rear license plate on a tow truck may be mounted on the  
12 left-hand side of the mast assembly at the rear of the cab of the  
13 vehicle, not less than 12 inches nor more than 90 inches from the  
14 ground.

15 (b) The rear license plate on a tank vehicle hauling hazardous  
16 waste, as defined in Section 25117 of the Health and Safety Code,  
17 or asphalt material may be mounted not less than 12 inches nor  
18 more than 90 inches from the ground.

19 (c) The rear license plate on a truck tractor may be mounted at  
20 the rear of the cab of the vehicle, not less than 12 inches nor more  
21 than 90 inches from the ground.

22 (d) The rear license plate of a vehicle designed by the  
23 manufacturer for the collection and transportation of garbage,  
24 rubbish, or refuse that is used regularly for the collection and

(g) ~~It is the Legislature's intent that an accommodation be made to persons with disabilities and to those persons who regularly transport persons with disabilities, to allow the removal and relocation of wheelchair lifts and wheelchair carriers without the necessity of removing and reattaching the vehicle's rear license plate. Therefore, it is not a violation of this section if the reading or recognition of a rear license plate is obstructed or impaired by a wheelchair lift or wheelchair carrier and the license plate is a special identification license plate issued under Section 5007 or the vehicle displays a distinguishing placard issued under Section 22511.55 or 22511.59. 12    (4) *This subdivision does not apply to a front license plate.*
